

FOR IMMEDIATE RELEASE

DBF Ranked Among 2015 Top 75 Mid-Atlantic Design Firms

Davis, Bowen & Friedel, Inc. (DBF), has been ranked #57 on the *Engineering News-Record* (ENR) Top 75 Design Firms in the Mid-Atlantic region. The rankings were based upon revenue earned in the states of Maryland, Delaware, Virginia, Pennsylvania, and West Virginia, as well as Washington, D.C. during 2014. DBF was the highest ranking Delmarva-based firm on the list.

This annual list of firms was compiled by ENR, an established publication in the engineering, architecture, and construction industry with over 60,000 subscribers. For over a century, ENR and its sister magazine, *Architectural Record*, along with the databases of F.W. Dodge & Sweets were a segment of the McGraw Hill Construction business unit. This unit became Dodge Data & Analytics in 2014.

DBF has been providing professional engineering, architectural, and surveying services to individuals, businesses, municipalities, and governmental clients in Maryland, Delaware, and Virginia since 1983. A few projects from the past year contributing to the firm's "Top 75 Mid-Atlantic Design Firms" ranking include the Wallops Research Park in Virginia, Milford's CHEER Center, beach replenishment at Willoughby Beach, improvements to the athletic complex at Salisbury University, grant assistance to the Town of Henderson, MD, street improvements in St. Michaels, MD and Delmar, DE/MD, and the new regional service center for Choptank Electric in Salisbury, MD - now under construction.

"When you consider the economic contributions by the construction industry generated in the Mid-Atlantic Region, most notably Washington D.C., Baltimore, and Philadelphia, it's nice to see the Delmarva Peninsula provides its share as well. And, as a firm based on the Peninsula, we couldn't be more proud to be serving our communities and clients here and to be doing so at a level noteworthy to *Engineering News-Record*," stated DBF principal Michael R. Wigley, AIA.

Davis, Bowen & Friedel, Inc., is a full-service architectural, engineering, and surveying firm, with offices in Salisbury and Easton, Maryland, and in Milford, Delaware. For additional information, please visit www.dbfinc.com.
