

FOR IMMEDIATE RELEASE

Nichols Joins DBF, Inc.

Davis, Bowen & Friedel, Inc., welcomes Steven Nichols as the latest addition to its Salisbury location. Nichols brings more than eight years of residential and commercial experience as a Civil Engineer to the firm. Prior to joining DBF, Inc., he served as a Transportation Construction Inspector for the New York State Department of Transportation, and provided engineering services to Crawford & Associates Engineering, Bergmann Associates, and the firm of Stinemire & Lenskold.

A graduate of New York's Rochester Institute of Technology, Nichols chose to relocate to the Salisbury area where he'll continue to provide civil engineering services for the region. Experienced with water and wastewater design implementation, site design, site layout, grading, utility layout/design, and the development of construction documents, he has also been responsible for on-site inspections and reporting, site surveys and stakeouts, investigative field work, and construction phase documentation.

Since joining DBF, Inc., Nichols has used his skills to contribute to a wide range of projects on the shore that have included design development for a local City Hall complex, site and stormwater management design for a condominium development, commercial, hotel and residential developments, multiple utility layouts including a mile-long forcemain extension in Sussex County, Delaware, and construction administration for projects in Maryland.

"As soon as Steve joined our team, he's fit in," said Tim Metzner, R.L.A. and Project Manager at DBF, Inc. "His willingness to jump in with both feet on every project has made this transition extremely smooth for everyone. We're glad he's decided to make the eastern shore his new home."

Davis, Bowen & Friedel, Inc., is a full-service architectural, engineering, and surveying firm, with offices in Salisbury and Easton, Maryland, and in Milford, Delaware. Additional information can be found online at www.dbfinc.com.
