

Metzner Achieves LEED Accreditation

Davis, Bowen & Friedel, Inc. (DBF) announced today that Timothy M. Metzner, R.L.A. has been accredited by the U.S. Green Building Council (USGBC) as a Leadership in Energy and Environmental Design Accredited Professional (LEED AP) with a specialty in Neighborhood Development.

Metzner, a landscape architect and associate with DBF, has provided civil engineering design and landscape architecture services to clients across the Delmarva Peninsula and Mid-Atlantic region for over 15 years. He currently oversees and manages the site engineering team at the DBF office in Salisbury, Maryland. This past year, Metzner has been involved in land planning projects that included subdivision layouts, commercial site plans, stormwater management designs, utility layouts and park designs. He has been instrumental in site design efforts for a number of pending and certified LEED projects, including the Choptank Electric Regional Service Center, Bennett Middle School, the UMES Engineering and Aviation Science Complex and Salisbury University's Seagull Stadium.

LEED certification is a globally recognized professional credential which verifies Metzner's expertise, proficiency, and credibility in the green building and new urban development industries. "Every choice we make has an environmental impact and we're responsible for maintaining a healthy built environment. There is an increasing need for sustainable planning and design in our communities," said Tim Metzner, R.L.A., LEED AP ND. "Accomplishing LEED accreditation allows for DBF and myself to contribute a better quality of life to the communities we live and work in."

Davis, Bowen & Friedel, Inc., is a full-service architectural, engineering, planning and surveying firm with offices in Salisbury and Easton, Maryland, and in Milford, Delaware. For additional information about DBF, visit www.dbfinc.com.
